Introduction

Documents within this series

The following documents typically survive among these marriage licence records:

- **Allegations**: Affidavits or sworn statements, known as ‘allegations’, in which one party (the ‘deponent’, normally but not necessarily the groom) swears that there is no impediment to their marriage, setting out the details of the marriage in front of a ‘surrogate’ for the bishop’s Chancellor. The surrogates were senior clergymen in different parts of the diocese, appointed to take oaths for marriage licences within their area.

- **Bonds**: Until 1823, a bond was also required, committing the deponent of the allegation to pay a sum of money as additional security for the allegation. The bond may be a separate document, or may be written out on the back of the allegation. An additional ‘surety’ may be specified within the bond (often a relative of one of the parties to the marriage).

- **Declarations of consent etc**: If either party is under 21, the consent of her/his parent or guardian is required, and this is usually noted on the allegation. In some cases, an additional affidavit is taken from the parent, or a declaration of their consent is recorded in a separate document.

- **Baptism records**: From September 1822 until March 1823, certified copies of the baptism register entries for bride and groom were generally required and retained with the marriage licence records. In some cases, affidavits or other documents accompany these baptism records.

- **Marriage licences**: The marriage licence itself would be issued to the parties, but in many cases between September 1822 and March 1823 a copy of the licence was retained with the other records.

Within the list of records, the date of an additional document is only stated if different from the date of the allegation. Note that the date of the original baptism has not been recorded within the list (for those allegations which are accompanied by copies of baptism register entries).

Numbering and listing of the records

The marriage licence bonds and allegations were kept within yearly bundles in date order, but not originally numbered in any way, and they are listed in this order (without numbers) in the pre-1815 calendars. Full reference numbers were added prior to their digitisation by the Genealogical Society of Utah c.2004 (for eventual publication on their familysearch website). The bonds and allegations for 1821-1837 were then listed by volunteers in 2009, at the end of the North East Inheritance (probate listing) project: this range was chosen in order to provide some form of finding aid for all the marriage licence records prior to civil registration of marriages in 1837.

Finding aids for the marriage licence bonds and allegations

The following finding aids are available for the marriage licence bonds and allegations among the Durham Diocesan Records:

- **up to 1815**: Microfilms of indexed lists (each covering several years), compiled by a local genealogist c1900 (also available in typescript at some local libraries). This is available for use in the search room (ref M/FilmL 929.3 DUR, specify the years that you are interested in).

- **1816-1820**: A card index to the licence bonds and allegations for 1816-1820, compiled by library staff. This is held in the search room card cabinet.

- **1821-1837**: A database compiled by library staff and volunteers in 2009: see indexed lists on search room shelves (ASCRef Z DDR). Yearly lists are also published online at our http://familyrecords.dur.ac.uk/ website.

- **after 1837**: Not listed. If you are looking for a marriage licence in this period, you should specify the date of the marriage (from parish registers, Bishops’ Transcripts or civil registration records), so that we can search the relevant box of allegations for you.

Index of places

References are to page numbers. Place names within the documents are recorded and indexed at parish level where possible (under both country and county name), though addresses of ten state larger towns without further qualification, and there has been little attempt to identify parishes for places outwith Northumberland and County Durham. To facilitate place indexing, the 1890 County names for the UK have been adopted (including London alongside Middlesex). Bold page numbers indicate parishes where marriages are due to take place. Addresses of the parties are indexed in a normal weight font.

Index of occupations

References are to page numbers. Only occupations are indexed, not status terms like 'esquire' or indications of marital status such as 'widow'. Occupations are generally recorded exactly as given within the original documents, except for some normalisation of spelling and hyphenation. However, separate army and naval officer positions are indexed together, Church of England clergy are consistently indexed as 'clerk', and dissenting clergy as 'minister'.

This index includes all the personal names noted from the documents, except for the parties to marriages and others who are explicitly or implicitly connected with them (including guardians, and sureties within bonds). These other names are mostly officials of the court (the vast majority being surrogates), though there are a few other (family and non-family) names given as witnesses etc. Note that parish clerks and incumbents etc mentioned within copies of baptism register entries (1822-1823) have not been included within the list. The names are listed under their separate roles (surrogates, proctors etc). References are to page numbers.
